Invitation to our webinars | Meet our experts online!

Register for our free webinars and discover the new highlights of SIMARIS design 10 – the planning tool for network calculation and dimensioning.

Registration:

Via your Siemens SIMARIS contacts:
www.siemens.com/simaris/contact

Language: English

Costs: Participation is free of charge.

Training method:

Webinar via Microsoft Teams or Circuit

Duration:

60 minutes

The network design software SIMARIS design facilitates electrical network planning, including short-circuit current calculation, on the basis of real products with minimum input.

Features of SIMARIS design:

- Free definition of network operating modes and switching conditions
- Calculation takes account of possibly required functional endurance
- Consideration of lightning and surge protection
- Representation of busbar trunking systems for power transmission and distribution
- Isolated networks can be planned and displayed
- Distribution boards can be mapped as equivalent impedances which can be incorporated into the calculation, acting as substitutes for parts of the network which cannot yet be specified more precisely
- To document results, a wide variety of output options is provided, e.g. for analysis and optimization of the energy efficiency of the planned network
- Project export for further processing in SIMARIS project: to determine the space requirements of distribution boards, creating the basis for budget finding.

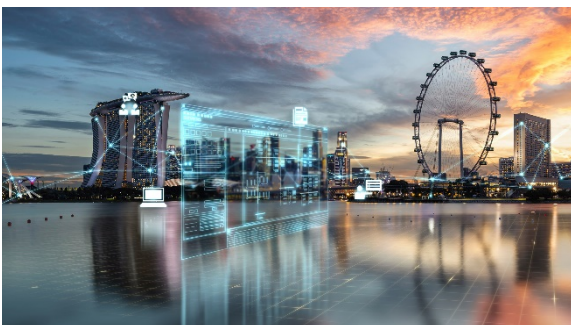

Webinars SIMARIS design 10

- **SIMARIS design 10 – overview and innovations**
2020-10-19 | 9 a.m. (CET) + 4 p.m. (CET)
- **Introduction into project definitions and their effects on network dimensioning**
2020-10-22 | 9 a.m. (CET) + 4 p.m. (CET)
- **Introduction into user interfaces**
2020-10-26 | 9 a.m. (CET) + 4 p.m. (CET)
- **Library elements and their parameters**
2020-10-29 | 9 a.m. (CET) + 4 p.m. (CET)
- **Network dimensioning according to operating modes, cable dimensioning**
2020-11-09 | 9 a.m. (CET) + 4 p.m. (CET)
- **Fault-Sequence-Analysis, selectivity considerations**
2020-11-12 | 9 a.m. (CET) + 4 p.m. (CET)
- **Project outputs and input of a sample project**
2020-11-16 | 9 a.m. (CET) + 4 p.m. (CET)

Now available: The SIMARIS Suite

The SIMARIS Suite is the platform for your unitary access to all SIMARIS planning tools. SIMARIS design is part of the SIMARIS Suite.
